YOUR KEY TO HYGIENE SECURITY

- The RAL Quality Certification Mark RAL-GZ 992/2 provides you with continual, reliable **security** in relation to **textile hygiene** for **hospitals, care homes, rehabilitation clinics and sanatoriums**, as well as **spas and wellness providers**.
- The **RAL Hygiene Certificate** according to RAL-GZ 992/2 can only be awarded to quality certified laundry companies that can already prove **process management** according to RAL-GZ 992/1 Commercial and Domestic Linen.
- Process management means: permanent, efficient **quality assurance** with optimized process flows and work procedures - always based on state-of-the-art science and technology.
- In the German health care system, the **RAL Hygiene Certificate** verifies that **processing is carried out in accordance with the requirements of the Robert Koch Institute** for subcontracting laundry to external service providers.
- Benefit from the know-how of a large community with more than 400 affiliated laundry companies.
